SUMMARY

Final-year Computer Science and Engineering student with full-stack development and applied-AI project experience, seeking Software Engineering roles.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, TypeScript, HTML, CSS, SQL

Front-End: React, Vite, TailwindCSS, shadcn/ui

Back-End: FastAPI, Node.js

Database: MongoDB, MySQL

ML/AI: PyTorch, OpenCV

Cloud & Tools: Vercel, GitHub Actions, Figma

EXPERIENCE

Freelance Web Developer

Remote

Client project — Pathfinder 24/7

- Built and deployed a React + Vite + Tailwind + shadcn/ui landing page for a travel & immigration consultancy client.
- Configured production deployment on Vercel.

ELITE Research Lab LLC

January 2026 – April 2026

Research Intern (Remote)

- Authored 6 research papers spanning medical imaging, ML-based diagnosis, and AI workflow support.
- Produced literature reviews, experimental design, and manuscript writing for chest X-ray analysis, glaucoma diagnosis, RTI classification, and radiology report generation.
- Prepared publication-ready manuscript drafts across multiple formats (original research, brief reports, mini-reviews).

PROJECTS

RecruitBD-AI [\[Visit\]](#)

- AI-powered CV parsing and job matching platform.
- FastAPI backend with Gemini API integration extracts structured data from CVs (PDF/DOCX) and matches candidates against a pre-indexed job database using SentenceTransformers.
- Frontend built with React, Vite, Tailwind CSS, and shadcn/ui.

Ledger-AI [\[Visit\]](#)

- AI-powered business intelligence dashboard for SME owners.
- Next.js backend uses Groq LLaMA models for sentiment tagging and plain-English report generation, plus a multi-agent AI CFO orchestrator that produces strategic recommendations with evidence and trace logs.
- React 18 + TypeScript + Tailwind frontend, with Supabase Auth for workspace-based user management.

Pathfinder 24/7 [\[Link\]](#)

- Premium landing page for a Bangladesh-based travel and immigration agency.
- Built with React + Vite + Tailwind CSS + shadcn/ui, showcasing visa processing, work permits, student visas, and immigration consulting in a polished single-page experience.

Portfolio - Personal Website [\[Visit\]](#)

- Personal portfolio site built with Tailwind CSS, featuring responsive, visually engaging layouts.

AIUB Fitness Zone [\[Link\]](#)

- Fitness management platform for AIUB students and faculty with workout plans and resources.
- Built with Java and Java Swing.

StudentDash 2.0 [\[Link\]](#)

- Ride-sharing application for the student community offering affordable, safe transportation with real-time tracking.
- Built with C# and SQL in Visual Studio.

EDUCATION

American International University-Bangladesh

Dhaka, Bangladesh

B.Sc. in Computer Science and Engineering — CGPA: 3.86/4.00 — Jan 2023 – Expected September 2026 (Final Semester)

Relevant Coursework: Web Technologies, Object Oriented Programming, Machine Learning, Computer Vision & Pattern Recognition, Natural Language Processing, Software Engineering, Research Methodology.

Dhaka Imperial College

Dhaka, Bangladesh

Higher School Certificate (HSC) — 2019 – 2021

PUBLICATIONS

- Co-authored 3 peer-reviewed papers in computer vision — YOLOv11-based detection for infrastructure fault detection (Future Internet, 2025), bilingual sign language recognition (JImaging, 2025), and anemia detection via eye conjunctiva features.
